Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/18/2005 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Connie Wong on 3/30/2006.

The application has been amended as follows:

In claim 20, line 4, after "antigenic fragment" insert
-- or the homologous sequence --

The following is an examiner's statement of reasons for allowance:

homologous" recitation in the claim. The recitation "75% homologous" to SEQ ID NO:4 appears in original claim 4 as filed. There is a strong presumption that an adequate written description of the claimed invention is present when the application is filed. In re Wertheim, 541 F.2d 257, 263, 191 USPQ 90, 97 (CCPA 1976). The claims, as amended, involve a protein which must share at least one epitope with Ljungan virus. One virus-specific epitope is all that is required for diagnostic utility or immunogenic utility. In the immunology art, mapping of linear epitopes is routine, and many virus-specific linear epitopes would be predicted in a protein the size of SEQ ID NO:4. A protein 75% homologous to SEQ ID NO:4 would predictably retain one or more virus-specific linear epitopes. Therefore, a single species of protein is seen as sufficient to describe the genus of proteins claimed here.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary E. Mosher, Ph.D. whose telephone number is 571-272-0906. The examiner can normally be reached on Monday-Thursday and alternate Fridays.
